PREFATORY NOTE TO ISSUE OF 1916

Since the third issue of this list in 1910, the recataloguing of several classes has been completed, that of others begun or advanced: Philosophy; Heraldry; Genealogy; Political science; International law; sections of Art, Language and Literature; Agriculture; Military and Naval science; special collections, Lincoln, Washington, etc. These subjects, covered fully or in part, have increased the list to more than double its former size. Together with the Preliminary lists of subject headings with local subdivision, recently issued, it forms a necessary complement to the main list of subject headings, and a key to the subject subdivisions used on the printed catalogue cards.

The compilation of the additions and the preparation of the revised list for printing are the work of Mary W. MacNair.

CHARLES MARTEL,
Chief of Catalogue Division

HERBERT PUTNAM
Librarian of Congress
Washington, D. C., July 1916

The fourth edition of this list having been exhausted, it is now reissued, incorporating additions which have been made from 1916 to date.

SUBJECT SUBDIVISIONS UNDER NAMES OF COUNTRIES, STATES, ETC.

The subjects represented in this list belong mostly to the historical, political, and social sciences. For subjects in technology, science, and art, etc., which have country subdivision, see the "Subject headings with local subdivision," 1920; these are represented under the country by a *see* reference only (*e. g.* Canada—*Botany. See* Botany—*Canada*)

When subdivisions given below have been used only under certain countries, it is so specified. As far as applicable, they may be used under other countries.

GENERAL FORM DIVISIONS UNDER SUBJECTS

Addresses, essays, lectures.

To include addresses, essays, lectures, whether issued singly* or in collections, whether by one or more authors. To be limited to the class of works specified, *i. e.* works which are usually brief and do not treat the subject as comprehensively or methodically as a regular treatise.

Occasionally the term "essay" is applied to a work which really forms a comprehensive treatise on a subject or branch of a subject. In this case the subdivision is to be omitted. The same holds true of a series of lectures on a particular subject which, issued together, may form a connected and comprehensive treatise, and should therefore be entered under the general subject without subdivision. *cf. Addresses, commemorations, etc.; Addresses, sermons, etc.*, on p. 25–26.

Bibliography.

Bio-bibliography.

Collected works.

Ordinarily for works of one author. In certain cases, especially under scientific and technical subjects, the subdivision *Collected works* covers works by one or more authors (*e. g.* Science—*Collected works*)

Collections.

Ordinarily to cover collections of works by different authors. In certain cases, especially under scientific and technical subjects, subdivision *Collections* is omitted, and subdivision *Collected works* covers works by one or more authors. *cf.* subdivision *Collections* on p. 35.

Congresses.

cf Congresses, conferences, etc., on p. 37.

Dictionaries.

cf. Dictionaries, indexes, etc., on p. 40.

Directories.

Exhibitions.

cf. Exhibitions and museums on p. 45.

Handbooks, manuals, etc.

cf. Handbooks; Handbooks, treatises, etc., on p. 50.

History.

---

*A single address, essay, or lecture which deals with a particular phase or subdivision of a subject is to be entered under that, not under the general heading with subdivision *Addresses, essays, lectures* (*e. g.* an address on the history of medicine is to be entered under Medicine—*History*, not under Medicine—*Addresses, essays, lectures*)

Outlines, syllabi, etc.

Confined to syllabi and outlines in the strict sense of these terms. Does not include treatises in the form of compends, manuals, or handbooks.

Periodicals.

Societies.

Form subdivision for collections, memoirs, reports, transactions, etc., of societies under the name of the subject or subjects of which they treat (*e. g.* Botany—*Societies*)

cf. Societies, periodicals, etc., on p. 74.

Societies, etc.

For publications of universities, museums, and other institutions, and of certain commissions which are not societies in the ordinary acceptation of the word.

Statistics.

Study and teaching.

cf. Instruction and study on p. 54, *also* the general headings Agricultural education, Technical education, etc.

Year-books.

cf. Almanacs, year-books, etc., on p. 26.
